THE PENNSYLVANIA STATE DATA CENTER PROGRAM

THE CONCEPT

The Pennsylvania State Data Center (PSDC) Program has been established to improve access to and use of statistical resources available from the United States Bureau of the Census and other sources. Census Bureau products that can be accessed through this PSDC Program include all major statistical programs covering such areas as: population, housing, agriculture, manufacturing, retail and wholesale trade, governments, etc. Data are generated in printed reports, microfiche, and computer files. Information and services are available through the PSDC office at The Pennsylvania State University Capitol Campus, the Pennsylvania State Library, or through the network of Affiliate Data Centers (ADCs) located across the Commonwealth.

THE PENNSYLVANIA STATE DATA CENTER

Data Products and Services

The PSDC located at The Pennsylvania State University Capitol Campus will provide products and services to any interested user. State agencies, local governments, businesses, nonprofit organizations, or researchers may all obtain information housed and generated by the PSDC. Costs incurred by the PSDC in providing products and services will be charged to the user.

Products and services available through the PSDC are:

- Census Bureau printed reports and microfiche
- Census Bureau reference maps
- PSDC printed reports
- Consultation on data availability and use
- Computer tape processing
- Demographic and geographic profiles
- Statistical analyses
- Statistical mapping and geoprocessing

Training and Information

The PSDC facilitates education and training in the use of statistical resources by participating in conferences, workshops, and training courses throughout the state. The PSDC also publishes a periodic newsletter about user services and new statistical products.

If you would like information about training sessions or would like to receive copies of the newsletter please contact the Pennsylvania State Data Center.

The Center

The PSDC staff is prepared to assist you in meeting your data and information needs. The center is open daily from 8:30 a.m. to 4:30 p.m. For information, please contact:

The Pennsylvania State Data Center

Introduction

The Pennsylvania School Districts: Census Data Summary contains selected population, housing, social and economic data from the 1980 Census of Population and Housing. The geographic areas for which data are presented are Pennsylvania, the 67 counties and 505 school districts.

There are 1,447 data items available from Summary Tape Files 1 and 3. This report has 15 tables with the most frequently requested data items and those which would be of special interest to school districts.

These data were compiled by the Bureau of the Census under an interagency agreement with the Department of Education. The State Education Agency in each state was asked to provide local school district boundary maps for each district in the state and assume responsibility for the accuracy of the boundaries submitted to the Department of Education. Copies of these maps can be obtained from the Pennsylvania State Data Center for the cost of reproduction.

The Geography Division of the Bureau took the school district boundaries and transferred them to the 1980 Census Geography, creating a cross-reference file. The resulting files have been designated STF1F, Complete Count Data and STF3F, Sample Estimate Data.

1980 CENSUS DEFINITIONS

Age	- the number of years completed from birth to April 1, 1980.
Armed Forces	- persons 16 years old and over on active duty in the Army, Air Force, Navy, Marine Corps and Coast Guard.
Contract Rent	- the monthly rent agreed to, or contracted for, regardless of any furnishings, utilities or services that may be included.
Employed	- civilians 16 years old and over who were either (a) "at work" - all as paid employees or in their own business or profession, or on their own farm, or who worked 15 hours or more as unpaid workers on a family farm or in a family business; or (b) "with a job but not at work" - those who did not work during the reference week but had jobs or businesses from which they were temporarily absent due to illness, bad weather, industrial dispute, vacation or other personal reasons.
Family	- a group of two or more related persons residing together. A household can contain only one family. A person maintaining a household alone, or with unrelated persons only, is regarded as a householder but <u>not</u> as a family.
Family Income	- total money income received in calendar year 1979 by all family members 15 years old and over, tabulated for all families.
Group Quarters	- living quarters which consist of institutions, dormitories, military barracks, rooming houses and similar living arrangements that are occupied or intended for occupancy.
Household	- the person(s) living in a single housing unit. Household is generally synonymous with the term "Occupied Housing Unit."
Household Income	- total money income received in calendar year 1979 by all household members 15 years old and over, tabulated for all households.
Not In Labor Force	- persons 16 years old and over who are not classified as members of the labor force.
Per Capita Income	- this item is derived by dividing the total income of an area by the total population of that area.
Index	- index is an indicator of each geographic area's relationship to the state of Pennsylvania. The index for Pennsylvania will always be 100, while county and school district indexes will reflect the variance above or below the state.

Plumbing Facilities - complete plumbing facilities include hot and cold piped water, a flush toilet, and a bathtub or shower, for the exclusive use of the household and located in the respondent's living quarters.

Poverty - families and unrelated individuals are classified as above or below the poverty level by comparing their total 1979 income to an income cutoff or "poverty threshold." Poverty thresholds are computed on a national basis only. The threshold levels are based on the Department of Agriculture's 1961 Economy Food Plan reflecting different consumption requirements of families based on their size and composition.

Private Schools - a nonpublic school or college supported primarily by private groups other than religious organizations, such as private nursery schools and nonreligious elementary schools.

Race - there are 15 race categories listed in the 1980 questionnaire, and respondents were asked to specify which of the 15 categories they identified themselves. Since the Census obtained information on race through self-enumeration, the data represents self-classification by the respondents. The concept of race as used in the Census does not denote any clear-cut scientific definition of biologic stock.

Other - the sum of all race classifications excluding black and white.

Spanish Origin - respondents were asked to self-identify whether they were of one of four categories of Spanish origin or descent. This question was asked of all respondents, and answers to it are independent of answers to the question about race.

Total Persons - the sum number of inhabitants of a geographic area.

Unemployed - civilians 16 years old and over who were neither "at work" nor "with a job, but not at work" and who were a) looking for work during the last 4 weeks, and b) available to accept a job.

Unrelated Individual Income - total money income received in calendar year 1979 by an individual, 15 years old and over, tabulated for all unrelated individuals.

Work Disability - refers to persons having a health condition which has lasted six or more months and which limits the kind or amount of work which they can do at a job.

Units With 1.01 or More Persons Per Room - number of units occupied by more persons than there are separate rooms.

AFFILIATE DATA CENTERS

The purpose of the Affiliate Data Center (ADC) network is to more directly meet the needs of local users. The ADCs maintain a publicly accessible collection of census materials and reports. They have personnel trained to assist data users in locating data items and are available for consultation. The ADCs provide a wide range of products and services on a cost recovery basis.

Statewide Affiliate

The governor has designated the Health Data Center as the official state center for health statistics. As a member of the Affiliate Data Center network, the Health Data Center provides statistical support services to meet the needs of federal, state, and local data users and providers in both the public and private sectors.

For health statistics information contact:

Pennsylvania Health Data Center
Ms. Linda A. Mann
Pennsylvania Department of Health
P.O. Box 90
Harrisburg, PA 17120
717/783-2548

Local Affiliates

Users are urged to direct requests for census information to their nearest Affiliate Data Center. The ADC will make referrals to the PSDC or another affiliate if it cannot handle your request.
